The Chemical Company

Source Reduction Strategy:

Bulk shipments of waste isobutyl alcohol were trucked to Fielding Chemical Technologies in Mississauga, Canada to be recycled into product. We are also reviewing the possibility of recycling the isobutyl alcohol as an ingredient to manufacture another product.

Certification:

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
